

Single Candlelight

by R J Tomlin

A monster reigns across this realm seeking sheer destruction,
Its darkness clouds the way before you, swallowing your sight,
The happiness that you once felt is far beyond existent,
The sun remains a memory; now there is only night,
The path ahead is burdensome, steep and broken too,
And though you may be walking blinded, don't let yourself affright,
'Cause all it takes to slay that monster is a single shard of hope,
And all it takes to remove the darkness is a single candlelight.
